Monday 26 September

Dear Parent/Carer,

We would like to invite you to attend a workshop on our delivery of Maths in the Early Years Foundation Stage on Tuesday 29th November 9:00-9:45am.

The workshop is designed to show the expectations of the Early Years Foundation Curriculum and beyond, and will demonstrate how maths is taught to your child in our school. During the session, we will explore the use of manipulatives and practical activities which we use in school and will share and demonstrate how we implement our school's calculation policy, which we hope will help you to support your child's learning at home.

This workshop will take place in the KS2 hall. Please wait outside the Main Entrance to school at 9am and we will come and greet you.

We hope you can join us for this session, so we can work collaboratively to help support your child make the best progress possible.

Yours sincerely,

Miss Gibson
